

## **Laboratory technician - image quantification**

### **Job Summary**

A Laboratory Technician position is available in the Radiochemistry and Nuclear Imaging Group at CIC biomaGUNE, located in the Gipuzkoa Technology Park in San Sebastián. The appointed person will be trained to provide support to the members of the group in image quantification and analysis.

The candidate will join a research group focused on the preparation of positron-emitter labelled tracers and their evaluation in preclinical models of disease. The contents of the activity to be carried out at biomaGUNE will be:

- Learning about image reconstruction and analysis. The candidate will learn imaging analytic tools and methods
- Application of the methods to imaging studies carried out in the group.

The candidate will receive training until reaching the knowledge necessary for the comprehensive development of the position.

### **Education Level:**

- BSc in Biomedical engineering.

### **Skills:**

- Good communication skills in English and Spanish.
- Teamwork abilities.
- No previous professional experience.
- Less than 3 years since obtaining BSc.

### **Duration:**

Full time. Training contract for obtaining professional practice ( 1 year )

**Envisaged Job Starting Date:** August 2024

**Application Deadline:** 2024-07-12

## Project Funding:

- (invoiced funding) - - (Fundação para a Ciencia e a Tecnologia (FCT, Portugal))

**How to apply:** [Check the full details at webpage](#)

**Informal Inquiries:** Informal requests for additional information can be sent to *Jordi Llop* at [jllop@bicbiomagune.es](mailto:jllop@bicbiomagune.es) or at .

Applications sent directly to the emails listed above **will be NOT be accepted**

**Equal opportunities Policy:** CIC biomaGUNE is proud to be an equal opportunity employer and applicants will receive consideration for employment without regard to: age, color, disability, gender, national origin, race, religion, sexual orientation, gender identity, or any other classification protected by European, national, or local law.

## About CIC biomaGUNE

CIC biomaGUNE, located in the Science and Technology Park of Gipuzkoa (Donostia-San Sebastián), is a leading research center in the area of bionanomaterials, molecular imaging and regenerative medicine and counts with more than 160 people from 24 countries. The activity of CIC biomaGUNE is conducted by a team of 11 international and dynamic research groups, supported by flexible and efficient management teams and a unique research infrastructure including the Molecular Imaging Facility, one of the biggest preclinical imaging research infrastructures in Europe.

CIC biomaGUNE maintains a vibrant weekly scientific seminar program by visiting leading scientists. Additional training in soft skills and technologies covered by the CIC biomaGUNE technical platforms is offered to researchers within the in-house training program.

CIC biomaGUNE is committed to developing an HR Strategy for Researchers, designed to bring the practices and procedures in line with the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).
